**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**Our Vision**

The college motto is empowerment of women through quality in education. We firmly believe that to provide for women a wide range of professional and vocational courses to meet the social and economic demands. We draw our strength from our founder's commitment, hard work and foresight. A. S. Hemu Kalani Yadgar Mandal's, Smt. Jamnabai H. Wadhwa College of Technology and Kothari College of Management Studies are committed to the empowerment of women through quality oriented professional education.

To provide for women access to higher education through formal and non-formal streams including adult and continuing education.

To provide for women a wide range of professional and vocational courses to meet the socio-economic demands.

To develop scholarship and research in emerging areas of study, particularly with focus on women's perspectives.

To inculcates among women positive self-concept, awareness of women's issues and right with a rational outlook forwards society.

**Our Mission**

To promote a College/Community/Society/ Nation where spiritual, moral and genuine values are lived and witnessed.

To contribute to the transformation of society through an openness to reality and living the challenges of being socially conscious and socially responsible.

To synergize women and those prevented from exercising their right to be human, through enlightening them regarding their basic human rights and helping them to achieve the same.

To work towards the integrity of creation through being conscious of and alert to the state of devastation and destruction of creation and serious perils that humankind is plunged into. We promote programmes / movements that foster inter-connectedness, kinship and eco-justice.

To recognize the advantage of using modern tools and technological innovations for teaching-learning and governance and its visible impact in empowering students.

To facilitate leadership among the students enabling them to be genuinely other centered, proactively enthusiastic, and spiritually and socially motivated towards personal, group and social liberation.

To inculcate ethical and moral values in the students and encourage them to become integrated honest citizens capable of handling their careers and lives effectively to create smart, sincere and responsible women citizen.

**Our Goal**

The College aims at the integral formation of "Intellectually creative, emotionally mature, morally responsible, spiritually enlightened, socially committed and Truly liberated" young women who will reposition themselves as self-reliant and responsible individuals, who would transform society.

The mutual trust and cordial relationship of the college community contributes to the effective realization of our goal - an "empowered woman" who would fearlessly chart a journey of her life.

The distinctive characteristics of the institution are defined in the Mission statement with regard to the core values mentioned.

**B. Sc. IT**

There has been an accelerating development in the Computer Industry and the number of women entering the field is growing rapidly in order to cater to the demands of the computer industry as well as women aspiring to achieve quality education and qualification in computer technology in the new millennium. A. S. Hemu Kalani Yadgar Mandal has introduced Bachelor of Computer Application (BCA) a Bachelor's program of 3 years exit with UG Program under Smt. Jamnabai H. Wadhwa College of Technology in the academic year 2008-09. Affiliated to S.N.D.T. Women's University.

In the academic year 2024-25 BCA program has been changed as BSC IT using nomenclature with the permission from SNDT Women's University.

The Bachelor of Science in Information Technology (B. Sc. IT) is an undergraduate degree program designed to equip students with the skill and knowledge necessary to thrive in the rapidly evolving field of information technology. As the backbone of modern business operations, IT plays a vital role in driving innovation, efficiency and competitive advantage across industries.

The main objectives of the program include :

- 1. Technical Proficiency :**  
Equip students with the technical skills required to design, develop, and manage software and hardware systems.
- 2. Problem - Solving Skills :**  
Develops critical thinking and problem - solving abilities by engaging students in real-world projects and case studies.
- 3. Understanding of IT Infrastructure :**  
Provide a through understanding of IT infrastructure.

**4. Professional Development :**  
Prepare students for professional careers by emphasizing communication skills, teamwork, and ethical practices in IT.

**5. Adaptability and Lifelong Learning :**  
Foster a mindset of lifelong learning to keep up with the rapidly evolving IT landscape, ensuring that graduates can continuously adapt to new technologies and methodologies.

**Career Opportunities after B. Sc. IT :**  
Graduates of the B. Sc. IT program have a wide array of career opportunities available to them across various industries. Some of the prominent career paths include :

- 1. Software Developer/Engineer :**  
Involves designing, coding, and testing software applications and systems.
- 2. System Analyst :**  
System analysts work with organizations to improve their IT infrastructure and business processes.
- 3. Network Administrator :**  
Manages and maintains an organization's computer networks, ensuring efficient and secure communication.
- 4. Database Administrator :**  
Responsible for the performance, integrity, and security of databases.
- 5. Cybersecurity Specialist :**  
Protects an organization's information system from cyber threats.
- 6. IT Consultant :**  
Provides expert advice to organizations on how to use Information technology to meet their business objectives.
- 7. Data Analyst :**  
Interprets complex data sets to help organizations make informed business decisions.

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**8. Web Developer :**  
Develops and maintains websites and web applications.

**9. Project Manager :**  
Project managers ensure that projects are delivered on time, within budget, and meet the desired outcomes

**10. Cloud Solutions Architect :**  
Designs and manages cloud computing strategies and infrastructure.

**11. AI/Machine Learning Engineer :**  
Develops and implements artificial intelligence and machine learning models to solve complex problems.

**Further Studies :**  
Graduates may also opt for further studies such as

1. **Master in Information Technology (MSC.IT)**
2. **Master in Computer Science (MSC.CS)**
3. **Master in Data Science (MSC.DS)**
4. **Master of Computer Application (MCA)**

***B. Com. in Management Studies***

There has been an accelerating development in the Business & Management and the number of women entering the field is growing rapidly in order to cater to the demands of the industry as well as women aspiring to achieve quality education and qualification in Management Studies in the new millennium. A. S. Hemu Kalani Yadgar Mandal has introduced Bachelor of Management Studies (BMS) 3 years exit

with UG Program under Kothari College of Management Studies in the academic year 2008-09. The Government has granted permission to start the Bachelor's Program and the program is affiliated to S.N.D.T. Women's University.

In the academic year 2024-25 BMS program has been changed as B. Com. (Management Studies) using nomenclature with the permission from SNDT Women's University.

A Bachelor of Commerce (B.Com.) in Management Studies is an undergraduate degree program designed to provide students with a comprehensive understanding of business principles, management practices, and organizational dynamics. This program typically integrates course work in commerce, management, economics, accounting, finance, marketing, and human resources, among other relevant subjects.

Here are the objectives of B. Com. in Management Studies:

**1. Foundation in Commerce :** Students will build a strong foundation commerce-related subjects such as accounting, economics, business law, and business communication. This provides them with the fundamental knowledge needed to understand various aspects of business operations.

**2. Management Principles :** The program introduces students to key management principles and theories, including organizational behaviour, strategic management, operations management, and leadership. Students learn how to effectively manage people, resources, and processes within organizations.

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**3. Specialization Options :** Many B.Com in Management Studies programs offer specialization tracks or elective courses that allow students to focus on specific areas of interest within management. Common specializations may include finance, marketing, human resource management, entrepreneurship, or international business.

**4. Practical Learning :** Practical learning experiences such as case studies, projects, internships, and industry interactions are often integrated into the curriculum. These experiences help students apply theoretical concepts to real-world business scenarios and develop essential skills for the workplace.

**5. Critical Thinking and Problem-Solving:** Throughout the program, students are encouraged to develop critical thinking, analytical, and problem-solving skills. They learn how to analyse business situations, evaluate options, and make informed decisions to solve complex problems.

**6. Communication and Collaboration :** Effective communication and collaboration are emphasized as essential skills for successful management professionals. Students learn how to communicate clearly, work in teams, and collaborate with diverse stakeholders to achieve common goals.

**7. Ethical and Sustainable Practices :** With increasing emphasis on corporate social responsibility and sustainability, B.Com. in Management Studies programs often include coursework on ethics, corporate governance, and sustainable business practices. Students learn about the ethical implications of business decisions and the importance of sustainable management practices.

Overall, a B. Com. in Management Studies provides students with a wellrounded education in commerce and management, preparing them for a wide range of career opportunities in business, finance, consulting, entrepreneurship, and beyond.

**Career Opportunities after B. Com. in Management Studies :**

A Bachelor of Commerce (B. Com.) in Management Studies opens up a diverse range of career opportunities across various industries. Here are some common career paths that graduates might pursue:

**1. Management Trainee / Entry - level Management Positions :** Graduates often start their careers in entry-level management positions in various industries such as retail, banking, finance, hospitality, and manufacturing. These positions may include roles like management trainee, assistant manager, or supervisor, where they gain hands-on experience in overseeing day-to-day operations and teams.

**2. Financial Analyst :** With a strong foundation in finance and accounting, B.Com. graduates may pursue careers as financial analysts. They analyse financial data, prepare reports, and provide insights to support decisionmaking related to investments, budgeting, and financial planning for organizations.

**3. Marketing Coordinator/Assistant :** Graduates interested in marketing can pursue roles as marketing coordinators or assistants. They assist in developing marketing strategies, executing campaigns, conducting market research, and analysing consumer trends to promote products or services effectively.

**4. Human Resources Assistant / Coordinator :** Those with an interest in human resources management can start their careers as HR assistants or coordinators. They support HR functions such as recruitment, employee onboarding, performance management, training and development, and employee relations within organizations.

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**5. Business Development Associate :**

Graduates may work as business development associates, responsible for identifying new business opportunities, building client relationships, and developing strategies to expand the organization's market reach and revenue.

**6. Accountant / Financial Controller :** With a strong background in accounting and finance, graduates may pursue careers as accountants or financial controllers. They manage financial records, prepare financial statements, ensure compliance with regulations, and provide financial guidance to organizations.

**7. Entrepreneur/Small Business Owner :** Some graduates may choose to start their own businesses or ventures, leveraging their management and entrepreneurial skills to establish and grow successful enterprises in various industries.

**8. Consultant :** Graduates can work as consultants for management consulting firms or independently, providing advice and solutions to organizations on various business challenges such as strategy development, operational efficiency, process improvement, and organizational restructuring.

**9. Supply Chain/Logistics Coordinator :**

Those interested in operations management can pursue careers in supply chain or logistics coordination, where they manage the flow of goods and services from suppliers to customers, optimize distribution processes, and ensure efficient supply chain operations.

**10. Public Sector / Government Jobs :**

B. Com. graduates may also explore opportunities in the public sector or government agencies, where they can work in roles related to finance, administration, policy analysis, or economic development.

These are just a few examples of the career opportunities available to graduates with a B. Com. in Management Studies. The versatility of the degree equips graduates with the knowledge and skills needed to thrive in various roles and industries, providing a solid foundation for long-term career growth and success.

**Further Studies after B. Com. in Management Studies :**

Pursuing further studies after completing a Bachelor of Commerce (B. Com.) in Management Studies by pursuing a master's degree can significantly enhance your career prospects and deepen your expertise in a specific area of business and management. Here are some common options for further studies:

**1. Master of Business Administration (MBA)**

**2. Master of Commerce (M. Com.)**

**3. Master of Science (M. Sc.) in Management**

**4. Master of Human Resource Management (MHRM)**

**5. Master of Marketing Management**

**6. Master of Finance (M. Fin.)**

**7. Master of International Business (MIB)**

**8. Master of Public Administration (MPA)**

**9. Master of Management Studies (MMS)**

*\* Accredited by NAAC with 'B' Grade (First Cycle)\**

**B. Com. in Accountancy and Finance BAF :**

A Bachelor of Commerce (B.Com.) in Accountancy and Finance is an undergraduate degree program designed to provide students with a strong foundation in accounting principles, financial management, and related areas of commerce. This program combines theoretical knowledge with practical skills to prepare students for careers in accounting, finance, auditing, taxation, and other areas of business.

Here are the objectives of B.Com. in Accountancy and Finance:

**1. Accounting Fundamentals:** The program begins by introducing students to the fundamentals of accounting, including financial accounting, managerial accounting, and cost accounting. Students learn how to prepare and analyse financial statements, manage budgets, and make informed financial decisions.

**2. Financial Management :** Students gain a deep understanding of financial management principles, including topics such as capital budgeting, investment analysis, risk management, and financial planning. They learn how to assess the financial health of organizations and develop strategies to maximize profitability and shareholder value.

**3. Taxation :** The program covers various aspects of taxation, including income tax, corporate tax, sales tax, and international taxation. Students learn about tax laws, regulations, and compliance requirements, as well as tax planning strategies for individuals and businesses.

**4. Auditing :** Students are introduced to auditing principles and practices, including internal auditing, external auditing, and assurance services. They learn how to assess the effectiveness of internal controls, detect

**5. Business Law and Ethics :** The curriculum typically includes courseware in business law and ethics, covering topics such as contracts, torts, business ethics, and corporate governance. Students learn about legal and ethical issues affecting businesses and develop skills to make ethical decisions in the workplace.

**6. Financial Analysis and Reporting :** Students acquire skills in financial analysis and reporting, learning how to interpret financial data, conduct financial research, and prepare comprehensive financial reports. They gain proficiency in using financial analysis tools and techniques to evaluate the performance and financial position of organization.

**7. Risk Management :** The program may include courseware in risk management, focussing on identifying, assessing, and mitigating financial risks faced by organizations. Students learn about risk management frameworks, techniques for risk analysis, and strategies for managing risk exposure.

**8. Professional Development :** Throughout the program, students are encouraged to develop professional skills such as critical thinking, communication, teamwork, and problem - solving. They may have opportunities to participate in internships, industry projects, or professional development activities to enhance their practical skills and prepare for entry into the workforce.

Overall, a B. Com. in Accountancy and Finance provides students with a comprehensive education in accounting principles, financial management practices, and related areas of commerce, equipping them with the knowledge and skills needed for successful careers in accounting, finance,

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**Career Opportunities after B.Com. in Accountancy and Finance :** A Bachelor of Commerce (B. Com.) degree in Accountancy and Finance opens up a wide range of career opportunities in various sectors of the economy. Here are some common career paths for graduates:

**1. Accountant :** Graduates can work as accountants in public accounting firms, corporations, government agencies, or non-profit organizations. They may handle tasks such as financial reporting, budgeting, taxation, and auditing.

**2. Financial Analyst :** Financial analysts evaluate financial data, study economic trends, and assess investment opportunities for organizations. They provide insights and recommendations to management regarding investment decisions, mergers and acquisitions, and financial planning.

**3. Auditor :** Auditors examine financial records, internal controls, and compliance procedures to ensure accuracy, transparency, and regulatory compliance. They work in public accounting firms, government agencies, or internal audit departments of organizations.

**4. Tax Consultant/Advisor:** Tax consultants assist individuals and businesses in navigating complex tax laws and regulations, optimizing tax planning strategies, and minimizing tax liabilities. They provide advice on tax planning, compliance, and reporting

**5. Financial Planner / Advisor :** Financial planners help individuals and families manage their finances, set financial goals, and develop strategies for wealth accumulation, retirement planning, and risk management. They may work for financial planning firms, banks, or investment companies.

**6. Treasury Analyst / Manager :** Treasury analysts and managers manage an organization's cash flow, liquidity, and investments. They oversee banking relationships, monitor financial markets, and develop strategies to optimize cash management and investment returns.

**7. Credit Analyst :** Credit analysts assess the creditworthiness of individuals and businesses applying for loans or credit facilities. They analyse financial statements, credit reports, and other relevant information to evaluate risk and make recommendations on credit decisions.

**8. Financial Controller :** Financial controllers oversee the accounting and financial reporting functions within organizations. They ensure compliance with accounting standards and regulatory requirements, manage financial operations, and provide strategic financial guidance to senior management.

**9. Risk Manager :** Risk managers identify, assess, and mitigate financial risks faced by organizations, such as market risk, credit risk, and operational risk. They develop risk management strategies, policies, and procedures to minimize potential losses and protect the organization's financial assets.

**10. Management Accountant :** Management accountants provide financial analysis and insights to support decision-making within organizations. They prepare internal reports, analyze costs and revenues, and provide recommendations to improve performance and profitability.

**11. Investment Analyst / Manager :** Investment analysts and managers research investment opportunities, analyze financial markets, and manage investment portfolios for individuals, institutions, or investment firms.

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

**12. Financial Educator / Trainer :** Some graduates may pursue careers as financial educators or trainers, providing financial literacy education and training to individuals, groups, or organizations.

These are just a few examples of the many career opportunities available to graduates with a B. Com. in Accountancy and Finance. The versatility of the degree equips graduates with the knowledge and skills needed to succeed in various roles within the accounting, finance, and business sectors.

**Further Studies after BAF :**

After completing a Bachelor of Commerce (B. Com.) in Accountancy and Finance, pursuing further studies can help you deepen your expertise, specialize in a specific area, and enhance your career prospects. Here are some common options for further studies :

1. **Master of Commerce (M.Com.)**
2. **Master of Business Administration (MBA)**
3. **Master of Science (MSc.) in Accounting and Finance**
4. **Chartered Accountancy (CA)**
5. **Certified Management Accountant (CMA)**
6. **Chartered Financial Analyst (CFA)**
7. **Certified Public Accountant (CPA)**

**NEP 2020**

The National Education Policy (NEP) 2020, introduced by the Indian government, aims to overhaul and transform the Indian education system. One of the significant changes it proposes is the restructuring of higher education after the Higher Secondary Certificate (HSC) or 12th grade.

**NEP Structure after HSC Undergraduate Education**

The NEP 2020 envisions a more flexible and multi disciplinary approach to undergraduate education. The key features of the undergraduate education structure are :

**1. Four-Year Multidisciplinary Bachelor's Degree :**

⇒ **Duration :**

The undergraduate program will typically be four years long, leading to a Bachelor's degree with Honors or Research.

⇒ **Exit Options :**

Students have multiple exit options with appropriate certification at various stages :

- **Certificate :** After completing one year
- **Diploma :** After completing two years
- **Bachelor's Degree :** After completing three years.
- **Bachelor's Degree with Honors / Research :** After completing four years, with the final year focused on research or a major project.

**2. Flexibility and Multidisciplinarity :**

• **Choice-Based Credit System (CBCS) :**

Students can choose courses from a variety of disciplines, promoting a broad-based education. This system allows students to accumulate credits over time, making education more flexible.

• **Major and Minor :** Students can major in one discipline and take up minors in other subjects, encouraging interdisciplinary learning.

**Multiple Entry and Exit Points :**

The NEP 2020's flexible structure allows students to pause their education and re-enter at a later stage. This system is designed to accommodate diverse needs and life circumstances, making higher education more accessible and inclusive.

**Academic Bank of Credits (ABC)**

The NEP introduces an Academic Bank of Credits (ABC) to digitally store the academic credits earned from various recognized higher education institutions (HEIs). This allows students to transfer credits seamlessly and continue their education from where they left off, even if they switch institutions

\* Accredited by NAAC with 'B' Grade (First Cycle)\*

## TERMS OF ADMISSION for B. Sc. IT, B.Com. (Management Studies), BAF

Application form along with prospectus can be obtained from A. S. Hemu Kalani Yadgar Mandal on payment of cash. **There is no entrance exam for admission to the course.**

### **Special Features**

#### **Plat Exam**

Our college conducts the Plate (Progressive learning and Ability test) to support student's skills enhancement in areas like analytical thinking, problem solving and communication with our strong experience in organizing the PLAT examination, we ensure a smooth, fair & student friendly assessment process.

#### **Practical Training**

Students are subjected to rigorous practical training during the period of study.

#### **Job Placements**

Due to the accelerating demand for computer applications, Campus interviews by renowned software companies will be arranged by the management to offer job opportunities to bright deserving students.

#### **Internship**

In order to provide students exposure to the industry, students undergo internship during their summer vacations after completion of their semester IV examinations.

#### **Projects**

Students are given several projects during the course of three years which will be evaluated by experts from industry, Students will also complete a project in semester VI as part of their degree requirement. This project will be evaluated by an external examiner from the university.

#### **Counselor on Campus**

We have a trained Counselor on campus whose services are available free of charge to all members of teaching, non teaching staff and students.

#### **Library**

The library is meant for reading writing and reference work. The college library has a good collection of books. Cd's, journals and periodicals on the subjects of Computer Technology and is for the purpose of reference for students and staff. It remains open from 9.30 a.m. to 5.30 p.m. on week days except on Saturday when it closes at 3.30 p.m. it remains close on Sundays and Holidays. Strict silence and utmost cleanliness have to be maintained to provide an atmosphere conducive to study.

#### **Computer Lab.**

The college is well equipped with the facility of computers and computer software needed for the practical.

Students can avail of this facility during all working hours except during and ongoing practical class. Internet facility for browsing is provided with a limited number of hours during the course to each student. Additional internet facilities can be availed of as and when the lab is free, but these facilities cannot be misused for personal work like chatting, playing games etc.

#### **Excursion**

An excursion is arranged for students every year outside Mumbai to places of educational and cultural importance, wherein they visit computer industries.

#### **Extra Curricular Activities**

Various activities such as sports, cultural events, picnics, literary meets lectures, seminars and exhibitions, Blood check up camp will be organized during the course of the year. Encourage student to participate in various university level & Inter collegiate competition.

**\* Accredited by NAAC with 'B' Grade (First Cycle)\***

### **Holidays**

The college will remain closed on Sundays and all public holidays as declared by the Government of Maharashtra and on such other days as the principal declares from time to time.

#### **Memorandum of Understanding ( MoU ) Collaborations**

ExcelR – A globally recognized training and consulting organization offering certification programs in Data Science, AI, and Business Analytics, enabling students to gain industry-relevant skills and hands-on exposure.

Qspiders – A leading software training institute specializing in Software Testing, Development, and Placement Assistance, helping students build strong technical foundations and career opportunities in IT.

TNS India Foundation – A not - for - profit organization focussed on youth employability, providing skill development, life skills training, and placement support to enhance students' career readiness.

Magic Bus India Foundation – An NGO dedicated to empowering youth through education and livelihood programs, offering training in soft skills, communication, and employability for sustainable careers.

P. N. Doshi Women's College has established collaborative partnerships through Memorandums of Understanding (MoUs) with Smt. J. H. Wadhwa College of Technology and Kothari College of Management Studies to promote academic excellence, knowledge sharing, and the holistic development of students and faculty members.

These MoUs aim to strengthen inter - institutional collaboration by facilitating joint academic activities such as seminars, workshops, guest lectures, conferences, and faculty development programs. The partnership also encourages student participation in intercollegiate competitions, project collaborations, and skill enhancement initiatives, thereby providing broader exposure and valuable experiential learning opportunities.

Kotak Education Foundation - The collaboration focuses on providing skill - based training, career guidance, and industry exposure to students. It facilitates workshops, mentoring sessions, and placement support programs to bridge the gap between academics and industry requirements. This partnership aims to empower students with practical knowledge and improve their overall career opportunities.
